ICT Tools

Anugrah Memorial College, Gaya uses various Information and Communication Tools to promote holistic learning experience of the students. It ensures that the students stay updated with the changing demands of education and professional life. The college has a large seminar halls with ICT facilities along with nine Smart Classrooms with Smart Boards and Projectors and other facilities. The college has two computer labs with advanced computing systems along with a Language Lab with all the required facilities. For the smooth running of the facilities the college provides high-speed Wi-Fi internet. The college library is automated with Autolib 2.0 with a dedicated website for the library. It provides access to LCD screens, Computers and WiFi to the teachers and the students for study and research. The ICT tools of the college and the teachers' efficiency in using them help the college in confirming that knowledge is served on multiple platforms of offline, online and participatory learning. The college, including the Girls' Hostel is under 24/7 strategic surveillance by CCTV cameras for security.
